

LIFT PRODUCT ACCESSORIES

We make the lifts. Accessories make the lifts yours.

LOCK LIGHT™

LOCKLIGHT™

Provides Peace of Mind.

Before any under vehicle service is performed by a technician, a lift should be set securely on its mechanical locks. But this doesn't always happen. Improper use can result in technician injuries and may be subject to thousands of dollars in citations and fines from agencies such as OSHA and CCOHS. Either way, misuse of a lift's integrated locking system presents a major risk to a shop.

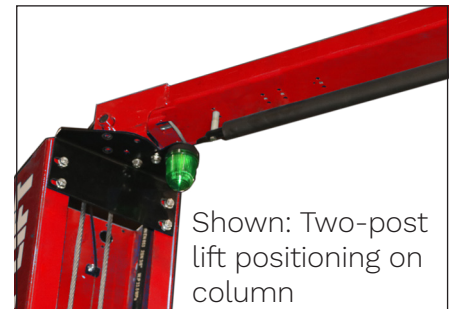

Provides an instant Green Light visual confirmation when a lift is lowered to its locks.

It's easy to protect your technicians and your business with the new **PATENT PENDING LOCKLIGHT**

- Is compatible with most surface and inground style lifts that use an electric/ hydraulic power unit
- Retrofits easily to existing lifts

Part No: FA834-KIT1

Shown: Two-post lift positioning on column

Part No	Descriptions
FA834Y-KIT1	Locklight kit, Two Post 3 Phase. Comes with indicator light assembly, pressure switch and mounting bracket. 220V AC. Suit 2 Post with plug in socket, Dec 2019 build on, excludes 1 phase.
