

# Sales Bulletin

## Special Promotion

In support of our recent release of the all new "Plug and Play" control box on Rotary Lift two post and four post lifts, the team at Rotary Lift are pleased to offer a special promotion on the "Plug and Play" accessories to get you and your customer up and running experiencing the benefits they offer.

## Features and Benefits

- Lock light provides an instant Green Light visual confirmation when a lift is lowered to its locks.
- Lock light is compatible with most surface and inground style lifts that use an electric/ hydraulic power unit.
- The motion activated SpotLine laser system helps center vehicles in bays quickly and accurately.
- SpotLine laser system greatly reduces spotting time by shooting a green laser line down the center of the bay and on to the vehicle's hood and dash.

# Sales Bulletin

The promotional pack consists of the all new efficiency adding SpotLine Laser and protection of LockLight for the two post lift range. Please review the supporting service bulletin to see full detail of fitting and installation detail.
