# DS7000

3175 KGS CAPACITY SCISSOR LIFT

**NEW**

## VERSATILE

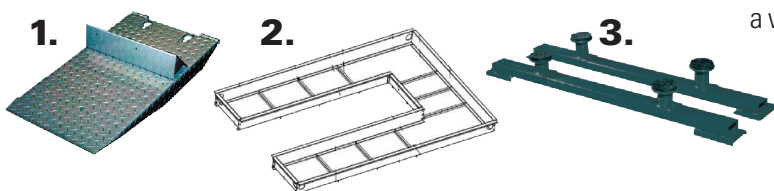

With a 3175 kgs. capacity, the DS7000 allows you to service a wide range of vehicles from small compacts to large minivans

### FEATURES:

- A single scissor structure:
  - more reliable and robust than a double scissor
  - fewer shafts, bearings and joints
- Electro-hydraulically controlled by dual hydraulic cylinders
- Torsion bar assists in synchronization during ascent / descent
- 13 safety lock positions with air operated release
- All shafts use self-lubricating DU bearings with grease fittings
- Tubes and cables protected by a flexible metallic sheath
- Available in surface or recess mounted versions

### OPTIONS:

1. Drive-through kit for surface mounted lifts Part # DS7000N-RMPS
2. Installation frame for recess mounted lifts Part # DS7000I-FRAME
3. Traverse bars for lifting frame vehicles Part # DS7000-TB

Easy to place rubber pads under lifting points of the vehicle

**Model: DS7000**  
3,175 kgs capacity scissor lift  
**RECESSED VERSION**

Easy to adjust platform extensions adapt for a wide range of vehicle lengths

### Electro-hydraulic control system

Safe and reliable, the integrated control panel is easily maintained and features push button operation
